Department of Innovation, Industry, Science and Research

Posted on 14 September 2011

Organisation

Department of Innovation, Industry, Science and Research

Purpose

The Department of Innovation, Industry, Science and Research strives as a key priority to encourage the sustainable growth of Australian industries by developing a national innovation system that drives knowledge creation, cutting-edge science and research, international competitiveness and greater productivity.

Portfolio Budget Statements

Outcome 1:
The sustainable development and growth of Australian industry -particularly the manufacturing, services and small business sectors -by encouraging businesses to innovate, collaborate and commercialise ideas, and by delivering business advice, assistance and services.

Outcome 2:
Production, use and awareness of science and research knowledge, by supporting research activity; training and infrastructure; science communication; skill development; and collaboration, within the research sector and between researchers and industry, domestically and internationally.
